

PERSON SPECIFICATION

The purpose of this specification is to identify the attributes required by applicants to perform the duties in the job description. The specification will be used to shortlist applicants and to compare how well candidates match the agreed specification. It will also be used by potential candidates to understand expectations and identify how their skills, behaviours and experience will be assessed.

Assessment Method Key

(Note for candidates: This is not an exhaustive list and if you have any questions about the assessment methods listed, please contact the team member named on the job advert.)

I	These criteria will be assessed during an interview , should you be shortlisted.
A	These criteria will be assessed at shortlisting ; therefore anything not advised in your application can not be scored.
P	During an interview you may be asked to produce a presentation , this is when these criteria will be assessed.
